Goldstein Accepts Adelphi Presidency

Leaving Baruch June 15

By Chan-Joo Moon

College President Matthew Goldstein will leave Baruch College to become the eighth president of Adelphi University effective June 15. "The official announcement came at a press conference on the morning of March 2 at the campus of Adelphi University in Long Island."

"I was leading an institution that I care deeply about, an institution that I helped mold with high standards and a sense of community," said Goldstein. "But there comes a time when your best work has already been demonstrated."

The announcement comes at the heels of the departure of Vice President James Murray on January 16. Provost Lois S. Cronholm may find herself in charge of all three top posts of Baruch College: president, vice president and provost.

The two other candidates for the presidency of Adelphi were Joyce P. Brown, a former CUNY vice president and provost.

"Matthew Goldstein was the front runner from the first time we talked with him," said Steven L. Issenberg, Chairman of Adelphi University board of trustees. He said that Goldstein had demonstrated a "scholarly stature, a commitment and sensitivity to students" and would make Adelphi in a "fresh direction."

Goldstein currently receives $132,040, equivalent to what all the other CUNY presidents receive. The Chancellorship of CUNY pays $172,486. At Adelphi, Goldstein will receive a $250,000 salary and some perquisites such as an apartment in Manhattan and a house in Long Island which will bring the total to approximately $500,000 per year.

Nationally, the average length of a college or university presidency is two to three years. Goldstein originally made a long-term commitment of five years. He has

Faculty, Students and Communities Unite Against Abolishing Open Admissions

By Han-Joo Moon

The controversial moves of City University of New York (CUNY) to dissolve certain membership in the Professional Staff Congress (PSC), the union which represents faculty and staff, created ripples in the New Jersey PSC. Although the New Jersey PSC, a group of PSC members, is calling for the local unions, the community and CUNY faculty, staff and students to unite in a grass-roots campaign to oppose what they say is a dismantling of Open Admissions.

The formation of the New Caucus two years ago led to PSC having the first election with an opposition candidate: 30 years. Although the New Caucus was only a year old when the election took place last April, they captured about a third of the vote. More than 60 percent of the 9,600 members voted in a non-secretary ballot, an unusually high turnout. The PSC re-elected Irwin Polishuk and his City University Union Caucus (CUUC) to represent them.

The 클로티 (Kloe) said that the New Caucus is a "black hole. They contend that CUNY is a black hole."

We have to change the perception of the larger community," said one member. "CUNY is a failure."

They include the low achievement rates and graduate policies, which they say have a disproportionate impact. CUNY has not had a contract with CUNY for the last two and a half years and the negotiations are conducted behind closed doors where even the members do not know the specifics.

Without tenure, you're at the mercy of a reappointment process whereas any moment you can be dismissed.

The point of tenure is to protect professors from being dismissed for their beliefs, or anything.

The second half of the conference broke down into five different discussions on the importance of tenure for junior faculty of the tenure process.

The current process for tenure requires five years of teaching experience at a college and continuous publication of journals.

President Goldstein noted that tenure is a highly desirable issue now that corporate America is shifting towards downsizing and restructuring of companies for efficiency. Opponents of tenure regard it as an obstacle for flexibility within the organization. They claim that tenure is a significant privilege.

Silence Equals Death

Mr. Weissman remarked during the February 23rd CUNY Board of Trustees meeting, "I hope to see the day when tuition is free, as it was in the '30s." It was also announced to the board his generous gift of $10 million to our university. At this same meeting, student protestors disrupted the proceedings. Outside, there were 150 student demonstrators fighting to open regular admissions at CUNY. When these demonstrators spoke out, CUNY-movers in moved to silence them. Because of the hope and gift of Sam Weissman, and people like him, just might be hope for our beleaguered institution to become, once again, the bastion of economic and educational empowerment, that it is slowly declining away from. Mr. Weissman spoke out and put his money where his mouth was. It now appears that the majority of us, however, choose to remain silent. In the words of a popular activist slogan, "Silence equals death." Our silence may equate to the death of our chances of obtaining higher standards of living, through higher education. If the majority of us remain silent, we imply our consent. If we all speak up, the powers that be, will have to hear us out, because our voices would make the whole world watch and listen. Then all eyes will be upon them. We would have no other choice but to listen. Our silence indicates our ignorance; ignorance concerning the power that we collectively possess to make change or influence policy. Our silence must be broken.

The title of my article is “Getting A Natural.” Your article presents a different view on African-American women and hair care. I didn’t want to upset anyone but I don’t love myself, that we want to look like Balmain brainswashers and not touch our hair ourselves. For some, this viewpoint may be surprising, but I’m stepping back a few steps from self-righteousness.

In this case, I wanted to open hearts and minds to the fact that Black women have “naturals” in more touch with God than those who relax their hair.

Firstly, a relaxer is in itself not harmful to the hair and shouldn’t be shunned. A chemical treatment should always be done on clean, healthy hair.

I believe that Black women have a right to be proud of each other and with each other. We need to break down any perceptions and self-imposed boundaries that we have.

The hair of the Black and Caribbean people is a symbol of the forced contration on an oppressed majority. If you look at your hair, you are gazing back at your roots. It is our past and it should be proud to see. It should be respected by all, even and especially by those who have never seen it.

It is only through acknowledging our roots and celebrating them that we can begin to love our hair. It is a beautiful thing that should be celebrated.

In my culture, cleanliness is very important. This includes the cleanliness of our hair. It is a sign of respect for ourselves and others.

No, we are not all alike. Some people may have straight hair, some may have curly hair, and some may have all types. But we all have something in common - our hair is a part of who we are.

The most important thing is that we love ourselves and our hair. We should embrace our differences and celebrate them.

So, let us all start loving our hair and each other. Let us begin to break down any barriers that we have.

Asian The Problem

These essentially were oversimplifications of the廉政 - the governments, and liberalized the market to foster growth. Additionally, "the state run industries and the national investment community in the region. According to Mochizuki, "These economies have not the same problems as other emerging economies, since the yen is a floating currency not tied to another currency. Moreover, the Japanese leadership seems to be trying to push this whole debate under the rug.

The Mini-Protest

The Weisman Center invited Kichiro Mochizuki, Chairman of the Pacific Institute, to give a more Asian perspective on the crises. Mochizuki is one of the most respected and influential economists in Asia, and has made major in-impact in the region.

Mochizuki explained that Japan does not have the same problems as other emerging economies, since the yen is a floating currency not tied to another currency. Moreover, the Japanese leadership seems to be trying to push this whole debate under the rug.

"Japan is Good" "People like to bash Japan, Japan is not the source of this problem. It is Japan that is not the problem. The Japanese are different, they have different values. I think this is the reason why the U.S. is blowing the crisis way out of proportion. Japan does not deserve the same treatment as other serious problems in the region. Japan represents a different culture, a different way of life."

In conclusion, Ford's progress in the Asia Pacific region has been significant. The company is investing in new manufacturing plants and expanding its market share. However, the road to success has been challenging, and the company has faced several obstacles along the way.

Protesters Shut Down Board of Trustees Meeting

By Keith Higginsbohm

Evolving images of protests in the past, students called for "social and educational apartheid." Students effectively shut down the February 23 CUNY Board of Trustees' public meeting in an effort to call attention to the threatened end of open admissions throughout the system.

Organized as a rally "To Take a Stand," almost one hundred students marched under police escort from the Hunter campus to the East 40th Street CUNY headquarters. Outside the headquarters, close to a dozen police vehicles and twice as many officers lined up in response to the students, setting up barricades in anticipation of the protest. Once the students arrived, the police formed perimeter to their chants of "No CUNY, no peace," and "What do we want? Education!

"End educational apartheid!" Students有效地把抗议推上了 February 23 CUNY董事会的公开会议。他们试图让公众意识到结束开放招生的威胁。

组织为一个名为"To Take a Stand"的集会，大约一百名学生在警察的护送下从Hunter校区前往East 40th Street CUNY总部。在总部外，大约十多名警察和五十多辆警车形成了一个界线，以阻止学生的进入。

到会学生到达后，警察形成了一个环形来回应学生们的呼吁："没有CUNY，没有和平，我们要教育！"

SAY WHAT ???

By David Blanks

THE QUESTION:

Who ultimately bears responsibility for the prevalence of the themes of SEX, DRUGS, VIOLENCE, and MATERIALISM in hip hop music today? The artists, the record companies, or the consumers, and what affect, if any, does this have on society?

I think it's both the artist and the consumer: the artist for producing such vulgar and the consumer for buying and supporting it. Young kids are buying it, then they go and tell their friends, and their friends go out and buy it, and after that they're like this person is doing it so why can't I do it? They get numb towards it.

Edward Rodriguez, Senior

"It's primarily due to the artist as they should be ultimately responsible for reflecting true hip hop principles as depicted on the ghetto streets. One who is hip hop would never succumb to a record label promoting a false image of them. The effect that it has on society is that the music does not reflect true hip hop culture. Instead it reflects American society as a whole and what they've been trying to sell to us for years, just in a different form."

Edward Rodriguez, Senior

"I think the record labels are responsible for the type of material that's coming out now because we're not short of artists with positive thinking and revolutionary ideas. It's just that their music is not put out there and the final effect on society is that we're developing a value system that is detrimental to our youth."

Adrian Jones, Sophomore

"I think the artists are responsible, but it can be a good influence or a bad influence. I think some artists have a serious impact on the youth, with the lyrics that they sing about sex, drugs, violence and materialism. Young people feel as if they are down when they practice what these artists depict in their songs. For instance, Foxy Brown and Lil' Kim got girls going out of their way to get Chanel outfits, just to fit in. Guys go around trying to sex all the 'shorties' and want to settle disputes with guns because they think that's what they are supposed to do. That's when it's a bad influence."

Marlene Fontes, Junior

Edward Rodrigues, Sophomore

The Brain,

Baruch Lab Mouse

"None of these infrastructural entities are responsible. I am! The entire hip hop industry is a sham. It's part of a plot that I have devised to take control of the youth, thereby gaining control of the future. By altering hip hop and manipulating the medium, I have effectively turned your children into inane, designer label wearing, blunt smoking, gun toting, wanna be Cristal drinking MORONS. That is just phase one. In their state of mental paralysis, they'll be susceptible to phase two, in which PUFF DADDY and I produce a remake of TEARS FOR FEARS "Everybody Wants to Rule the World". After a remix and multi platinum sales, I'll become a hip pop icon. From that platform, I'll convince your children that I am the supreme ruler, invite them to overthrow the established political order, and after disposing of PUFF DADDY, I'll claim my rightful place as RULER OF THE WORLD."

Jonny Clark, Junior

Edward Rodriguez, Senior

"Two words: BAD BOY! I feel that the record companies are the one's that are responsible because that is supposed to be setting an example for the way we act today and for the kids to everybody growing up in this society. They're just setting the example that money is everything. Their example to us is that money rules the world, and that without money you aren't sh*t, that all we have to do is do whatever it takes to get money and that's it; we'll be set for life. It's bringing us down cause everybody is just going out for themselves. They're not looking out for the next man, they're looking out for themselves, just to get the money. (Trying to make themselves the top dog)."

Tessa Gordon, Sophomore

Nicole Allen, Sophomore

Edward Rodriguez, Senior

"Record [companies] are trying to get paid. Artists are trying to get paid. Consumers are influenced by this, but I think it goes all the way [back] to the home where parents just have to discipline their kids, let their kids know what's right and what's wrong, and the difference between reality and hip hop. I think hip hop is reality but [people] have to distinguish between what goes on in the videos and real life."

Edward Rodriguez, Senior

On October 8, 1992 Gamma Phi Rho was founded. It was created to unite the students of the Baruch community. Unlike traditional Greek organizations, the members of the Greek are from all races and ethnic backgrounds. Gamma Phi Rho is a reflection of the diversity of the Baruch community. The members are from all races and ethnic backgrounds. They are proud of their cultural and ethnic heritage and integrated into the Baruch community, unlike traditional Greek organizations such as Alpha Gamma Rho.

The Greek community also has numerous activities, such as Greek Week, which lasts six to eight weeks. Assignments, appointments and events are not open to the public. The Greek community also has an annual Greek Week. The Greek Week is a celebration of the Greek community and the diversity within it. The Greek Week is a way for the Greek community to come together and celebrate their unique cultures. The Greek Week is also a way for the Greek community to show their support for each other and their community. The Greek Week is a time for the Greek community to come together, celebrate, and support each other.

The benefits of membership are many, including the opportunity to learn about the history and traditions of Gamma Phi Rho. "WU-TANG IS FOR THE CHILDREN!!"
The Ol' Dirty Bastard Injects Hip Hop Reality Into The Grammys

The Wu-Tang Clan's work is the only true representation of hip hop music that experienced high sales. Wu-Tang Forever, unlike the Notorious B.I.G.'s Life After Death, has no reporting of diluted commercial hip hop themes. With this mind, it is completely logical to assume that Ol' Dirty knew they would love him. As Ol' Dirty later said, "The reason I did it was for rap, in general."

Even those that may agree with Ol' Dirty's words and music, see his actions as the right way to go about things. His actions were rebellious, right, righteous and pure hip hop. One of the practices in early hip hop was to verbalize the lyrics from the MC. Ol' Dirty was not representing originality, consistency and hip hop principles in general. Ol' Dirty's booming voice is a hip hop that every hip hop fan idolizes. With this, he took the forum to remind everyone what hip hop is, and every artist in attendance at the Grammys last night knew what hip hop is.

The Ol' Dirty Bastard's words at the Grammys last night were a joy to all the children he was referring to in his entertaining and an abomination to those who could not understand his actions. To the average viewer, unbeknownst to the incredible artists of the music industry, the media's ignorant perspective on the matter kept them as ignorant as they were prior to the incident.

Every genre of music created, from Puerto Rican/Colombian salsa, Dominican bachata, Jamaican Reggae, Black soul, U.S. jazz, etc., has codes and models of integrity that define the creativity, culture and validity of each work and the respected artist. With hip hop culture and its roots born out of the Black Latino struggle in the United States, its principles of quality and integrity are extremely necessary towards any attempts at commercialization.

The Grammys is a music awards show that primarily honors the most commercialized, thus diluted forms of every musical genre included. The winner is allowed to falsely proclaim musical ingenuity and superiority among their peers, ultimately validating theampa purchase made by those caught in marketing hype. All of the nominees for best rap album experienced incredible monetary success including the Wu-Tang Clan (Their double CD sold over 1 million copies, however because a double CD doubles sales only 2 million plus consumers purchased Wu-Tang Forever). Dangerous Beauty

By Hong Yean

Dangerous Beauty, based on a true novel "Hustler Courtesan" by Margaret P. Rosenthal and starring Catherine McCormack, Jacqueline Bisset, and Oliver Platt, in a strange mix of Zhang Yimou's Raise the Red Lantern and Mel Gibson's Braveheart. This is a story of Veronica Franco (Catherine McCormack), a young woman who was forced to sacrifice her most sacred possession to become Verger's "greatest asset." But was later tried.

Xiao, in its pure usage of poems and sonnets. The scene where Veronica Franco, played effectively by Oliver Platt, is a good example of how the movie caters to a much older audience. Jacqueline Bisset (Wild Orchid, La Ceremonie) wonderfully portrays the notorious courtesan. Paolo Frusca, who pushed his daughter to replace her as the leading courtesan of Venice. 

Often I found myself in a dreamlike state of mind after watching the business scenes at the college of Barach in New York City. I'd restructure lessons with an unorthodox application of terms. For instance, the extent of cannibalism was learned to me as the level at which a new product will hurt an existing product. It made sense to everyone but I clumsily drifted into the real world. The extent of cannibalism wasn't a priority when crack hit 1980 and food share decreased with another high and holy hunger. Still I wouldn't have had to worry if I hadn't noticed me. If only I would have kept my mind on their studies. I wouldn't have had to suffer the loss of my "greatest asset." But was later tried.

"Why did I assume incorrect data would be accepted? Instead I put in the wrong idea instead. The movie itself would pay a rich ransom for the beauty portrayal of Verger's style. Dangerous Beauty is a movie which makes men think twice about their role in society as matters of the universe. The old saying of "Behind every man is a good woman" is loudly echoed in every scene of the movie. It makes us think of just how far women have advanced in their standing in comparison with their male counterparts. While it remains that men will continue to dominate their female rivals in every aspect of business and domestic affairs, this film brings to the big screen the reality of the plights and struggles that women have undergone throughout the centuries as a group to reach their status as present-day women of the '90s.

OPENING THOUGHTS:

People complain that people like me don't understand native American arts. I swear that if this is the case, because they want to know my ideas and my style of dress. They use and exploit the same culture that they feel they are above. Therefore these people put themselves in the presence of looking up and looking down at the same time.

Since you were so busy looking up and down you were wide open to that right back. Now you lay emblazoned on the floor, face bloodied, spitting out teeth, I'm looking down on YOU.

Madonna's (right) new album, Ray of Light, is due in stores on March 3 with her first video for the album, Prayer already airing on MTV. A special called Ultraworld with clips of Madonna on the set of a new video and playing with her baby daughter, Lourdes, began airing on MTV on Sunday, March 1.

Sarah McLachlan's (left) sophomore album will begin on March 8 in Spokane, Washington and will end on April 17 in Baton, Idaho, with opening acts, Lisa Lebb and the Czech Fair. Last year's successful all-female acts tour will launch on June 19 in Portland, Oregon with Sarah McLachlan, Erykah Badu, Sade O'Connell, The Indigo Girls, and Natalie Merchant on the main stage. For McLachlan's fanatical following this will sound like a combination of Love, Help! Bob Dwein, Pink Floyd, The Beatles, and The Rolling Stones put together.

"The always fun and enjoyable, Washington DC based punk group Sickie comes at us with their new release You Are Not The Boss of Me. The trio, comprising of Sickie, drummer and backing vocals, Chris, the bass player and backing vocals, and Gogo, the lead singer and guitarist, have masses with punk hooks enough to catch ears and an innovation that would make Little Richard blush like a schoolgirl. This record does not say 'rock you to society, nor does it bitch about what is wrong with what Sickie's parents and authority. It just tells the listener about the band's friend from Japan, girls turning down computer geeks who may become the next Bill Gates, and the beat thing in the world (playing in a punk rock band). The album's best moments come when the band does a tribute to the Motels (appropriately called "My Tribute to the Motels name." Your Sister is a Wereswolf Tonight"), and when Sickie ask about "Bisonwar Jr., what happened to you in "What Happened.""

Artist: James Iha Album: Let It Come Down Label: Virgin Records Rating: 4/5

"After spending much of his musical career as the guitarist for The Smashing Pumpkins, James Iha has finally tuned the solo route with his debut album. Let It Come Down. The album's main theme focuses on love and all ten tracks convey a message. With such songs such as "Tonight, Tonight," "The Age of Aquarius," and "The Smashing Pumpkins box set," the Aeroplane Flies High being such hidden treasures in this b-side collection, it really showed that she had a talent. However, I was really excited to hear this album. It was an jazz-inspired tour de force with special guest The Mighty Blue Kings."

**Album:** Curve
**Label:** Universal Records
**Rating:** 4

Curve is a band that has received mixed reviews in the past. However, their latest release has received critical acclaim. The band's sound is a blend of rock and electronic music, creating a unique and refreshing listening experience.

The album features a variety of tracks that showcase the band's musical range. From the hard rock sound of "Far Beyond Driven" to the more experimental tracks like "The Great Southern You Come From," the album offers something for everyone.

"The Great Southern You Come From" is a standout track on the album. It features a memorable guitar riff and a catchy chorus that is sure to get stuck in your head.

Overall, Curve's latest release is a strong effort that proves the band is capable of producing high-quality music. Fans of both rock and electronic music are sure to enjoy this album.

Newman Institute Young Professionals Career Evenings

At the February Career Evening, Will McIntosh of Prudential Real Estate Investors spoke about his own work as a real estate finance investment professional at one of America's largest real estate investment banks.

In March, complementing Will's discussion, will be an investment banker from a smaller finance firm dealing with investment and development projects ranging from $5,000,000 to $20,000,000 in scope—projects typical of residential construction projects (and some commercial ones) in many of the City's outerboroughs. Learn what this person does, what his educational background and credentials are, and the structure of his working day. Learn if and how you could do it.

Newman Institute Career Evenings are a series of 8 hour-long presentations and discussions during the academic year over pizzas and Coke, with young leaders of the real estate industry in New York. Each presentation highlights a different component of the metropolitan area's real estate industry.

• Learn about different kinds of real estate jobs
• Ask questions about what you would be doing on the day you start work
• Meet both recent college graduates and the prime young leadership of the real estate industry

The Rain

By kyros21@yahoo.com

My destiny began with my death. (Click!) Went the sound of a Beretta semi-automatic. (BLAM!) A metallic projectile is shot into a cold steel barrel and into my windpipe. Army officials marveled as bodies fell into the freezing paddles of rain, only to be picked up by busloads laughter as I watched my family files from my eyes.

As my strings of Fate begin to snare, grasp the last string, I grasped with all my might, though deep within my heart I cannot do, not just yet.

Come on people! What's this young woman state?" said Dr. Jean Clark.

Jude Dow, no identification. Young Asian woman, bullet in the hand then thrust. She was found dead, execution style in an abandoned alley. She's been clinically dead for 10 minutes. Dr. Clark, there's nothing we can do now, of Dr. Clark, said Nurse Somsiri.

No! I will not accept that! No one has done on my behalf yet, it's not going to stop here! Get me the padlock! Cleared, said Dr. Clark.

No pulse. Brain activity is null. Even clinically dead for 10 minutes Dr. Clark, said Nurse Somsiri. You pathetic ingrate! Look at what you have done now! Now the Crimson Snakes will kill me.

I led out of my house with a Sophie's Choice. The children are turned, they gave my mother a Sophie's Choice. The children are turn, they gave my mother a Sophie's Choice. The children are turn, they gave my mother a Sophie's Choice. The children are...

Looking for someone to help me break the spell.
pray do tell

Can I look into your eyes?
We get closer to tomorrow
and I shudder in the contact

Excuse Me...

HELLO
I SEE YOU
WALKING BY, THEN GONE
WONDERING
WHERE YOU ARE GOING
DO YOU KNOW IF
I DON’T

ARE YOU LOST?
AM I
MAYBE SOMETIMES
WHERE DO I GO?
DO YOU KNOW IF
I DON’T

YOU ARE TOO FAST
DON’T LET ME GET A GLIMPSE?
I KNOW,
YOU HAVE TO BE SOMEWHERE
DO YOU KNOW IF
I DON’T

OH YES, I’M FINE
ARE YOU?
DAYS, WEEKS, MONTHS
WHERE AM I GOING?
DO YOU KNOW IF
I DON’T

-April E.

---

I touch your face
- I get closer to tomorrow
red ideas.
- I touch your face
shy reflections
- I box, in front of you
stumbling on the back.
- I make love to you
endlessly
- Can you see me, dance
magical rhythms
- I let myself to the given
defeat.
- I touch your face
darkened hues
- I light up the candle
working into infinity
- I retreat into the remembrance
fatal reminiscences
- I look at the mirror
dead slate.
- I come back to the secure
deadly routine.
- I touch your face
and I shudder in the contact
You touch my face
and your hands are auras
that dies with me.

Will I Find There is Room?

Is there room
on God’s earth
for my black heart
and my true blue soul?
Which gonna take the weight?

There is room
in the whole wide world
for nervous minded
short sighted people
who would never attain in my height.

So,
will I find
what I look for
but cannot touch?
I can almost taste success yet,
there are still more books
I need to read.

If I keep on,
never fail off
and stop to my, laser,
thankful that I am among the living
instead of dead.

Amen.

Colors of Society

Colors of society bind to the world forming hate pain and anger.
The meaning is beyond the hurt surge through our hurts,
broken love. Social barriers divide our motivations. Can we love?
Can we feel happy? The question of many anticipating to be answered.
The eyes of hope cut through thousands of hearts.
As in denunciation he wonders what has happened to society.
He sees the arms, the fists abound to his face.
In the world, the world he was bound to, in success his dream. Likely can’t do that
anywhere.
Social barriers divided his mind and body from all others for reasons of anger.
Anger that can not be healed.
Only men by a harmful eye.
Confusion arisen causing pain, erupting in the hell of our emotional happiness buffers but
condemned another generation.
The color of every beauty which causes such hurt.
A color that deserves respect but receives acapade.
Colors should be considered behind a mask for only then will the world bring a bit of pure and serenity.
The hidden hatred lies within us all for only when society binds together will it be shown.
As in the women’s eyes through our actions. Our expectations, the other of ignorance.
Which sight will you choose to be your mentor.
The sight which you watch the stolen eyes of an innocent color deform in all shapes and images restrained by your evil touch or the sight which you watch your delicate hands work the magic of the world bringing dim stars to your name.
Choose a path and live your life but know your consequences.

Correction: Last issue, we acted as devils and corrupted the creativity of Kenyatta Pious. Here is a reprint that does not begin to show how much we apologize for this error:

"UNTITLED"

WITH THE COLDNESS OF THE BREEZE
COMES THE SUDDEN REALIZATION OF WHO I AM
AND I AM ASHAMED TO ADMIT THIS TO MYSELF
TO ADMIT THE PRAGMATIC IMPOSSIBILITY OF COULD, WOULD AND
CAN
AND AT ONE SACRED MOMENT IT WOULD HAVE BEEN
IMPOSSIBLE
IMPOSSIBLE TO PERCEIVE THE NEW DEMEANOR IN MY
STATUE
FOR I REMEMBER THE NIGHT WHEN I HAVE LIED
LIED TO PRODUCE A SMILE - A FLASH OF TEETH
AND I AM AWARE SPIRITUALLY OF THE SHYNESS IN FALSEHOOD
I AM CONFRONTED WITH THE TURBULENT
THUNDERCLAPS OF WISHING OF LONGING FOR SOLITUDE TO DISGUSE
MY OBSCURITIES

You are leaving

You can go to the restaurant with friends.
You can go to movies with people
but when you are crying you are alone.
Alone as truth peaves days before.

God knows that I do not know what to do with my life.
that I have never known I want to do something with it,
I just do not know what, some stuff.
You, you know, you would know what to do
God knows that I would give my life for yours,
if only I could save you.
To save you and do the real good just for once,
which comes from the bottom of the god
the one that never shows up.

My life has no sense but it is yours that goes away.
That is disgusting I would not care about leaving tomorrow
but it is who you are preparing for the last journey.

Why the stars in the sky?
for narrow minded
in the whole wide world
There is room
bound to the

Amen.

Hypocrite

Engaged up to the neck
with the smoke of a cigarette
that dies with me
after all
life is nothing more than a step
before death.

A breath
before the determination contact
A glance before the quash
A kiss before the final clack.
A grenade
grounded
engraved on your face
in front of your thought
and I impregns touch the chords of your inner world.

I am sorry, I didn’t want to hurt you
but after all
the price of purity is high
and I just play the evil role.

REAL WORLD 1998 IS FOR YOU!
It is depressing to have to report that our Baruch Statesmen and Stateswomen lost in the semifinals of the CUNY tournament. Particularly distressing is the notion that many expected that both teams would advance to the championship round of the CUNYs. The Statesmen defeated Medgar Evers convincingly in the first round behind a break out game by Niall Bernard. The Statesmen lost in the semis against York.

The Statesmen made so many mental mistakes against York. The difference wasn’t talent, rather the will to win and the desire to do little things such as diving for the ball. Nonetheless, if all things remain constant, the Statesmen will return their core unit of players next year for another chance. While their regular season is now over the Statesmen have earned a bid to the ECAC tournament. They will face off against CSI. Guard and Staten Island resident, John Perodani said, “We want revenge against CSI because they beat us this year and they’re from Staten Island.”

The Stateswomen defeated Medgar Evers in the first round and lost in the semifinal round to Hunter. Though the Stateswomen did better than anyone could have imagined, one cannot excuse their premature departure from the CUNY tournament. The Stateswomen’s main problems were free-throw shooting and player consistency.

However, with five “frosh” starters this year they did win the Hudson Valley tournament and conceivably have three more years to not only repeat as Hudson Valley champs but to become a team that wins CUNY.

Finally, the coaches deserve to be thanked for the jobs they do. Baruch does not have the high profile facilities nor does it have a campus. It is especially hard for coaches to do their jobs under these circumstances. As the year proved there is only greatness in store for the Baruch teams.
